Dear …

I put the route card just ahead of the repair photographs. If you go out on a Sunday, try the road we marked on it. You used to call the bends before we came to them. I hope you leave yourself enough time to stop at the mill.

Letter

Dear Mara, I put the route card just ahead of the repair photographs. If you go out on a Sunday, try the road we marked on it. You used to call the bends before we came to them. I hope you leave yourself enough time to stop at the mill. With love, Evelyn.

Inventory Entry

Included: signed letter, dated vehicle record, timeline and index, copies of S001–S005, manuals and spare-parts inventory. Private originals stay in the family file. The copy is dated September 2025.

What Stays Useful Today

Evelyn keeps the working archive and adds subsequent work as it happens. The dated copy for Mara can be refreshed without disturbing the original records or the signed letter.
